Faisalabad, Punjab, Pakistan

Professional Summary

Final-year Zoology student at Government College University Faisalabad with a strong passion for Data Science, Machine Learning, Artificial Intelligence, and Software Development. Skilled in Python programming, data analysis, machine learning frameworks, and modern AI technologies. Experienced in developing academic and personal software projects while continuously expanding technical expertise through practical implementation and self-learning. Seeking opportunities to contribute analytical thinking, research abilities, and technical skills in data-driven and technology-focused environments.

Education

Bachelor of Science (BS) Zoology

CGPA: 3.33 / 4.00

Government College University Faisalabad (GCUF)

2023 – 2027 (Expected)

Final Year Student (7th Semester)

Technical Skills

Programming: HTML, CSS, Python

Machine Learning: NumPy, Pandas, Matplotlib, Seaborn, Scikit-Learn, TensorFlow, Keras, OpenCV

IDEs: VS Code, PyCharm, Google Colab, Jupyter Notebook, Programiz

AI Tools: ChatGPT, DeepSeek, Claude, Gemini, Grok, Gamma, Manus

Design Tools: Figma, Canva, Adobe XD, Adobe Photoshop, Adobe Illustrator

Projects

Student Management System

- Developed a Python-based application for managing student records and academic information.
- Implemented CRUD operations and structured data management.

Restaurant Management System

- Developed a restaurant management application for order handling and billing operations.
- Improved workflow organization through efficient data processing.

Scientific Calculator

- Built a calculator application capable of performing arithmetic and scientific computations.
- Implemented error handling and user-friendly functionality.

Data Visualization Dashboard

- Created visual analytics dashboards using Python, Pandas, and Matplotlib.
- Generated meaningful insights through graphical exploration of datasets.

Personal Portfolio Website

- Developed a responsive portfolio website showcasing projects, skills, and achievements.
- Utilized HTML and CSS to create a modern user interface.

Achievements & Milestones

- Earned certification through Harvard University's CS50x Puzzle Day 2026 by successfully solving all 10/10 challenges.
- Successfully completed Python coursework from Saylor Academy with an overall score of 88.94%.
- Participated in international coding competitions hosted by the University of California, Berkeley (2026).
- Participated in international coding competitions hosted by the University of California, Los Angeles (UCLA) (2026).
- Participated in 5+ AI Hackathons focused on innovation, machine learning, and problem solving.
- Mentored and taught programming, GitHub, and technology-related concepts to more than 25 students.
- Active GitHub contributor with multiple academic and personal software development projects.

Areas of Interest

Machine Learning, Deep Learning, Artificial Intelligence, Data Science, Computer Vision, Data Analytics, Scientific Research, Software Development
